

CareStart™ COVID-19 Rapid Antigen Testing

What does this test do?

The Access Bio CareStart™ COVID-19 Antigen Test is a point of care designated (POC) test with a 10 minute processing time that allows for the effective screening of COVID-19 infection on a large scale. The minimally invasive nasal swab test is used to rapidly confirm the presence of the COVID-19 virus after an individual exhibits symptoms or after a positive antibody test.

Why select Access Bio test kits?

1. The CareStart™ test is among the most accurate Emergency Use Authorization (FDA EUA 10/8/2020) tests available on the market today.
2. The CareStart™ test provides rapid results in 10 minutes.
3. The CareStart™ test is used to identify acute infection with high sensitivity.
4. The CareStart™ test enables minimally invasive specimen collection.
5. The CareStart™ test is cost effective.

Why purchase Access Bio test kits from Dutch Ridge?

As an established solutions provider to the Federal Government, Dutch Ridge is offering the Access Bio test kits via our distribution partner in New Jersey. Our corporate commitment is to help in the fight against COVID-19, thus Dutch Ridge entered into a distribution agreement to ensure this test kit was available to our Clients and Partners and has conducted our own evaluation of the vendor pipeline and delivery capabilities to ensure the viability of the product delivery.

What is the availability of Access Bio test kits?

The CareStart™ COVID-19 Antigen Test is a lateral flow immunochromatographic assay for the detection of extracted nucleocapsid protein antigens specific to SARS-CoV-2 in swab specimens directly collected from individuals who are suspected of COVID-19 by their healthcare providers. The CareStart™ test kits are available for immediate shipment. All orders are reserved for the specific client upon deposit and will not be diverted for any reason.

How do I order Access Bio Test Kits?

There are two convenient ways to order the CareStart™ test kits from Dutch Ridge:

1. Call (724) 923-6057 and Select Option 3
2. Order via email at: RapidCovidTest@DRCG.US

About Dutch Ridge Consulting Group

DRCG is a Service-Disabled Veteran-Owned Small Business (SDVOSB) that since 2016 has provided information technology and workflow solutions that improve the productivity and business operations of our Clients. DRCG recognizes the impact that the COVID-19 pandemic has had and made a decision to leverage our experience to try and bring solutions to help in the fight against the virus. As an authorized distributor, our test kit offerings complement other products offered to federal, state/local, and commercial customers.
